METRO

Easy Access in West Yorkshire

Guide to bus services
in West Yorkshire
that provide easy access
to wheelchair users

www.wymetro.com

Metro. Here to get you there

Buses on certain routes throughout West Yorkshire provide easy access travel. Low level and kneeling buses are becoming an increasingly common sight. Some people who previously had difficulties using buses will now be able to do so more easily.

This guide is intended to give an at-glance summary of easy access services and where they go. It does not replace any of the fully detailed timetables, which should be consulted to determine actual journey times. (For details of how to obtain timetables please see the back page of this leaflet).

Please note: Even though the services listed in this leaflet are scheduled for easy access buses, they cannot be guaranteed by the bus company.

The following guidelines should help to make your journey comfortable, safe and enjoyable:

- When the bus arrives at the stop, the driver will lower the bus and / or lower the ramp to pavement level.
- Once on the bus, reverse into the dedicated area for wheelchairs so you are facing the back of the bus.
- Remember to apply the handbrake.
- If you have any difficulties, please ask the driver for assistance.
- Look for the symbol on the side of the bus.

Metro and the West Yorkshire bus operators have agreed guidelines to assist bus drivers in helping passengers use easy access buses. A full copy of the guidelines is available at www.wymetro.com

Passengers can expect the following:

- Low floor buses will 'kneel' to allow passengers to board whenever it is safe to do so.
- Drivers will allow passengers time to board the bus before setting off.
- Wheelchair users will be able to board the bus if:
 - The bus is equipped with a wheelchair space
 - The wheelchair space is unoccupied
 - The total carrying capacity of the bus would not be exceeded
- Motorised wheelchairs and those carrying oxygen tanks are permitted on buses providing they are not too large for the wheelchair space.
- Motorised scooters, with handlebars or steering loops, are not allowed on buses.
- The wheelchair ramp will be used if it is safe to do so. Unfortunately however it may not be possible to use the ramp if the bus is prevented from reaching the kerb by other vehicles.
- Guide dogs, hearing and other assistance dogs are permitted to use buses.

Bus drivers cannot however insist that other passengers vacate priority seats and wheelchair spaces.
